maq	May 25 2006		He is a good guy and a very fast typist. thanks Michael
zara99	May 25 2006		
chicago60603	May 24 2006		Sorry, but based on the numerous questions he asked it was clear that he had no connection to my situation. I felt his advice was not based at all on any psychic insight and was general "dating" advice.
Faise	May 24 2006		
belia19	May 24 2006		
Bubba1	May 24 2006		For me this reading was a disappointment being as he has got 5 stars from others. Maybe he didnt connect as well.....as the reading was a general ramble which i could have read from tea-leaves.....however he did give me an initial which i resonated with but no further information came forward. But thanks anyhow. Good luck.
rainfallmagic	May 24 2006		he connected quickly, and the guides gave good advice.

sunnysmiles	May 17 2006	Had to hire straight off which makes me uncomfortable when \$\$ are precious as I've already wasted money when experts say hire then you find out \$5 later they have no clue what they are talking about but Michael did pick up clearly and immediately on my feelings with no info from me other than my name. The rest was prediction which sounds hopeful so pretty happy with my reading overall. I sent a follow up question which Michael helpfully answered immediately. Feels like a kind, genuine and gifted expert to me and I will be back to chat another time :)
Christy Johnson, LNHA	May 16 2006	very easy to talk to and saw into the situation well and quickly, I will certainly use again.
lisag	May 15 2006	trully gift kind and compansionate cant say enough about him

rainfallmagic	Jun 13 2006	intended, because he gives me such a lift. Also should say that everything he predicted in my reading two weeks ago came true, completely. He was very accurate and detailed, and his advice helped me to make good choices where I might not have, to have realistic expectations and to turn what could have been lemons into lemonade. This one is a real connected psychic. Thanks Michael! No prunes here!

			This is called "PROFESSIONAL". He picks up everything right away and goes on my spirituality and how I can improve my skills to connect to my higher self.

littlebear3723	Sep 16 2006	He isn't totally just a normal psychic. He's truly a spiritual teacher whom I look for to talk with. The reading is such profound and I am glad that everything I practice actually shows in his reading, energy wise. He even sees the rose energy that I draw into my aura everyday and I didn't even give him a cue or anything like that. I never had such an in-depth and informative reading like this before. He's become my most favorite right away.
